Technology

The uniqueness of True Color lies in the selection of the pigments used, which are at least 90% pure. Because of the low molecular weight of such pigments, their use does not require excessive swelling of the hair structure and guarantees a brighter colour and a more intense and saturated reflection. Another very important aspect is that they offer little resistance to the bleaching agent during bleaching, so they are more easily removed and, consequently, the hair fibre is better respected in the event of a look makeover.

AMMONIA: from 0,8%
pH COLOUR: from 9,0 to 10,0.

Main Active Ingredients

ORGANIC GOJI EXTRACT • STRENGTHENING

This ingredient is rich in Vitamins A and C, which are powerful antioxidants: they fight skin ageing and promote skin repair and growth. We can, in fact, often find Goji Berry extract in cosmetics with the aim of preserving the wellbeing of hair and skin.

ZANTALENE EXTRACT • ANTI-AGEING

The principle contained in this extract acts as a muscle relaxant with a calming effect. It acts by causing relaxation of the surface muscles of the skin; the result is a powerful anti-wrinkle activity.

TSUBAKI OIL • MOISTURISING

It boasts emollient and moisturising properties. It softens the hair and makes it more manageable by retaining moisture and restoring natural shine. It treats dry skin, helps prevent the formation of dandruff, protects against air pollution and repairs split ends.

HEMP OIL • SOOTHING

Hemp extract has many beneficial properties for the hair as it helps to moisturise, protect and strengthen. Rich in keratin, it helps protect the hair and repair damage caused by external agents. It moisturises the scalp, preventing dryness and dehydration.

MINT EXTRACT • SENSORIAL

It is used to give a pleasant mentholated fragrance to the colouring and provide freshness during application, turning the application moment into a sensory experience.

Protocol

MIXING RATIO

1 part True Color + 1½ parts Cream Activator (1:1.5)

True Color has been formulated for colouring 100% of grey hair.

Warm highlights (.3 .4 .5 .6 .8) colour 50% of grey hair.

Cool shades (.1 .2 .7) colour 25% of grey hair.

Over 25% for cold tones and over 50% for warm tones it is necessary to use the natural base with the following mixture:

1¼ natural base + ¾ reflection

The shades 11.0 and 11.1 are designed to be mixed with a 1:1.5 ratio at 40 volumes to guarantee 4 tones of lightening of the natural base.

The super-lighteners are designed to be mixed with a 1:2 ratio at 40 volumes to guarantee 5 tones of lightening of the natural base.

IMPORTANT

NO HEAT SOURCE! Heat is not required nor recommended.

Mixing Guidelines

The application time is 35 minutes with white hair, however, when working on non-pigmented hair types, always check the desired result before removing the colour. Extend the laying time by 5-10 minutes if necessary.

Philip Martin's Color World

Colour has always been part of our lives. Have you ever tried to imagine a world in black and white? Colour triggers and nurtures our emotions and feelings by making us express what we feel or how we want others to see us. This is what artists do.

For Philip Martin's, colourists are, to all intents and purposes, artists, and as such they need a colour palette that allows them to indulge their inspiration without renouncing the certainty of the result and respecting the client's wellbeing.

This is why Philip Martin's colour segments were created, a collection of shades that allows the professional to work with originality on any request the market may make.

Each Philip Martin's colour line has been formulated with selected raw materials, perfectly balanced pure pigments, correctors to personalise the reflection and plant-derived actives to treat the hair during colouring.

The synergy of all these ingredients results in an extraordinary colour that guarantees:

- Uniform tone and colour tone levels
- Freedom to create a customised reflection
- Better colour adhesion on the hair
- 100% white hair colouring
- Security of the final result

COEXISTENCE

How can technology and tradition live together?

At KIEPE Professional we have always combined high-tech with the skillful skills of our master craftsmen.

We need technology to have extreme precision, while the skillful and wise hands can give our products that added value that we would never be able to achieve using only soulless machines.

As a skilled tailor sews his drapes we give that extra touch to each of our hairdressing scissors, comb or brush...

...each tweezers, each haircutter or underwired for aesthetics is carefully checked over and over again both with electronic eyes and with the eye of those who have gained experience in years of practice.

Our hairdryers, hairdressers and hair straighteners have a soul... that soul is given by skillful hands that know how to make a creation almost alive...

...only when you try a product of KIEPE Professional you can feel that you have not only bought an object of common use, but a companion of style, that style that only you can have.

THE BEAUTICIAN AND THE ARTISAN

FROM HUMBLE BEGINNINGS TO WORLDWIDE PIONEERS

D A P P E R
D A I N T Y.®

HOW IT ALL BEGAN...

It was the summer of '79 and Dutch beautician, Reina Castille, owner of a local hair salon was heading home when the chain on her bicycle broke. She was pushing her bike along when Bertram Garret, an artisan brush maker, saw her outside his storefront and offered assistance. Bertram and Reina hit it off and soon the two began putting their passion and craftsmanship together to create some of the world's most innovative brushes. They began with humble beginnings selling their goods at local craft fairs under the name "Dapper and Dainty", an acknowledgment to the stylish and elegant beauty that their brushes bring to both women and men.

MOVING FORWARD...

From those first artisanal brushes that made them local legends, to now the worldwide pioneers of innovative brushes we know today; Dapper & Dainty has stayed true to a very simple idea: to offer revolutionary brushes with extraordinary craftsmanship.

SUPER SLIM COLLECTION

Revolutionary super lightweight design
with a slim hollow handle for easy styling

Lightweight, sleek, stylish & fun
Super lightweight design with a slim,
hollow handle for styling without strain or
tiredness. The comfortable soft cushion and
varying bristle types allow these brushes to
take on any job. Regardless of your hair type
and length. Each brush provides styling and
detangling without snags.

Bristles of all kinds and shapes
Whether you like ball-tipped bristles, boar
bristles, nylon bristles, extreme flex
bristles, or a combination of two, this line
offers what you're looking for.

CHAMELEON

COLLECTION

Lightweight body with a color shifting finish allows for snag-free styling without fatigue

Elegant, slender & sexy

Any hair type and length can enjoy snag-free styling, leaving hair smooth and ready for the day. Ball-tipped bristles accompanied with a flexible soft cushion provide a relaxing scalp massage. These super lightweight hollowed handles and sleek slim bodies allow for styling without fatigue.

Do a double take

These head turning chameleon designs change color depending on the angle you hold them.

MAX-FLO

COLLECTION

Unique design accelerates the drying process by allowing air to circulate directly to the roots

Unique, airy & flexible

The name says it all. These brushes are no joke when it comes to drying your hair. Their unique design accelerates the drying process by allowing air to circulate directly to the roots. Blends of varying bristles including ionic 100% boar hair help to bring natural oils from the scalp outward to naturally condition hair. A built-in convenient storage is incorporated at the base of the handle to hide hair pins.

Built-in storage

Leave the bag of pins at home. Convenient hidden storage in base of handle allows you to take pins on the go.

SCALP CARE COLLECTION

2-tier nylon bristles infused with keratin & Moroccan Argan Oil for a massaging scalp experience

Innovative, practical & handy
Why let scalp care stop after the shower? These brushes feature patented technology and are infused with keratin & Moroccan Argan Oil. Their 2-tier nylon bristles are fitted with comfortable ball tips for a massaging scalp experience. A non-slip grip ensures an easy hold while styling.

Get what you want
Bristles of all kinds and shapes! Why 2 different lengths you ask? The longer bristles penetrate the hair, reaching the scalp, promoting healthy hair follicles, while the shorter row works hard on detangling wet or dry hair.

Modern, breathable & chic

Super lightweight design with a slim, hollow handle for styling without strain or tiredness. The comfortable soft cushion and varying bristle types allow these brushes to take on any job. Regardless of your hair type and length. Each brush provides styling and detangling without those nasty snags.

Let your hands breathe

A specially designed slotted handle ensures air flow during styling to prevent sweaty hands. During use with wet hair, the rubberized grip provides extra handling to make sure the job gets done without any slip ups.

PYTHON

COLLECTION

Imitation python skin handle provides excellent grip and control for snag-free styling

Fun, fashionable & exotic

These daily brushes don't disappoint when it comes to function and style. With smooth ball-tipped bristles, enjoy styling your hair without snags or discomfort. The stylish print handle provides excellent grip and control that is great for all types of hair.

Unleash the animal inside

An exotic pattern that'll make you go wild! Not only is it important to have a brush that fits your needs, but one that fits your style too. Skip the boring brushes and take a walk on the wild side with this exotic print brush series.

GLOSSY WOOD COLLECTION

Boar and nylon bristles smooth and shine hair without breaking and damaging

Classic, durable & sleek

Prevent breakage and boost manageability with this series of brushes that feature 100% boar and nylon bristles. These brushes fit your everyday needs and can gently style through both wet and dry hair of any type. The natural boar bristles caress the scalp and enhance shine by distributing the hair's natural oils.

Tame tangles & boost shine

100% Natural boar bristles ensure a smooth and shiny look without breaking and damaging hair. The high quality bristles are affixed to an ergonomically designed glossed, wooden handle that fits perfectly in the palm of your hand.
